#### SPRING MEDICINE

Heod's Sarsaparilla, the Great Blood Purifier, is the Best.

Spring sickness comes in some de-gree to every man, woman and child It is that run-down condition of he system that results from impure,

impoverished, devitalized blood. It is marked by loss of appetite and that tired feeling, and in many cases by some form of eruption. The best way to treat spring sick-ness is to take Hood's Sarsaparilla. This old reliable family medicine purifies, enriches and revitalizes the blood. It is an all-the-year-round al-terative and tonic, and is absolutely

the best Spring medicine.

Get your blood in good condition at once—new. Delay may be danger-ous. Ask your druggist for Hood's Sarsaparilla, and insist on having it, for nothing else can take its place.

# SERV-US MINCE MEAT

Package condensed mince meat is made up today of the best quality of dried fruit and other items which can be found, all of which are found in the United States with the exception of spices and currants. The study of cking condensed mince mest has ex-Mr. and Mrs. Eben Learned of Hunttended over a period of 100 years and today is as near its perfection as we can possibly conceive. The sanitation on the factories in which it is packed is beyond reproach as the competition today in these lines necessitates the guarding of the most minute detail of the business. The apples used are of the best grade of New York State, where in our opinion is grown the best flavored apple known. The raisins used are of the best quality seeded unriety. No expense is con-sidered in procurring the very highest grade of spices, and sugar, as we all know is always sugar the different know, is always sugar, the different know, is always sugar, the different grades merely representing the differ-ent flavors or different granulation re-quired for different purposes. Every particle of fruit or any other article used in the manufacture of mince meat is thoroughly cleaned and hand-picked by neonic trained to know what should Tested y people trained to know what should and should not be used and in this manner the article comes to the housemanner the article comes to the house-wife cleaner by far than she could possibly take the same articles in her own kitchen, resardless of how clean it may be, and make up the filler for her mince pie. The old idea of dirt being provalent in quantity is today disputed by the greatest authorities on food products. The meat used in mince meat is of the choicest and to-lay the same corn-best which you day the same corn-beef which you and I would use on our table is what is being used in Serv-us Mince Meat. There are very few pies made which can be used as handly by the house-wife as mince meat for all it requires s a little water and being heated for ten minutes and it is ready for the crust and then the table and she may without fear of loss carry three or four packages of mince meat in her pantry, having it ready at any time for the chance occurrence of unexpected company and it will be a good dessert free from dirt. It is our thorough belief that a mince meat is made from condensed mince neat is about as chean a dessert as can be about as cheap a despert as can be prepared and yet as good.

For many years mince ment was considered a winter dish. Each year

for the last ten our factory has had to increase its capacity during the summer months until today it runs every day of the year with a regular force of helpers. We ship goods to every part of the country the entire year. This of course means a great increase in the use of these goods aver increase in the use of these goods over when mince meat was eaten only in the winter months which means an in-creased sale over the former winter
